Mission Statement

Our mission at LePage & Sons is to provide high quality waste management solutions which are environmentally sound — from the responsible disposal of excess waste to the convenient and practical collection of materials which can be recycled.

3118 162nd Lane NW, Suite B
Andover, MN 55304

The NEW shade of green

Commercial & Industrial

Reduce your carbon footprint and save money through the environmentally safe handling of waste

We've worked with the competition, but chose LePage & Sons because of their commitment to customer service, clean, new equipment, and competitive pricing. They have saved us money in the process and helped us eliminate much of our waste with their E-Z sort recycling program.

Scott Schulte, Owner/Operator
Hi-Ten Service Center—Coon Rapids, MN

Since 1999 **LePage & Sons** has partnered with leaders in the waste industry who are focused on preserving resources for future generations.

Our waste solutions are designed to ensure that our clients are compliant with current recycling standards. At LePage & Sons, we provide waste and recycling services that are cost effective, and earth-friendly. Our ethical and responsible management of waste allows the highest percentage of recycled items to be reused — whether to provide alternate forms of energy or materials which can help preserve our natural resources.

With less waste congesting landfills, our recycling service offers opportunities to:

- Save you money and save the environment
- Provide alternate forms of affordable energy
- Conserve natural resources
- Reduce the amount of waste
- Add value
